Hi John. Thanks for the quick response and for compiling all this information. It definitely reflects a huge effort on the part of MDNR to obtain input from interested citizens and organizational stakeholders. If I don't see you before the holidays, have a very merry Christmas and a happy New Year! – Bob

Bob,

I've reviewed the public meetings we've held on numeric nutrient criteria (NNC) and have compiled numbers and dates below. Agendas and supporting materials for these meetings can be found at the web links also included below. As you are aware, work on NNC began in earnest following submission of our WQS rule to address unclassified waters (effective Feb 2014). Due to the complexity and discussion surrounding the unclassified waters rule, the department and commission deferred discussions on the disapproved NNC until after that rule was completed. If you have questions or need additional information on the below, please let me know. Thanks

Updates were also given periodically at the Water Protection Forum, but NNC was highlighted specifically on June 26, 2014 during discussions of the WQS rulemaking to follow the unclassified waters rule <http://dnr.mo.gov/env/wpp/cwforum/docs/062614-a-cwforum.pdf>

Subject: NNC stakeholder meetings

Hi John. Would you happen to know how many NNC-related stakeholder meetings MDNR has hosted since August 16, 2011, when EPA disapproved most of the NNC adopted by the state in 2009? I believe the first such meeting was held on September 21, 2011, and the last such meeting was held on November 10, 2015. I've been going through my notes trying to count all the stakeholder meetings I attended, but I may not have been present at one or two of the meetings owing to scheduling conflicts. Thanks for any reasonable estimate you may be able to provide. – Bob
